

For Guests from China

～To Prevent New Form of Viral Pneumonia～

In Wuhan, China, there have been increasing cases of pneumonia thought to be Novel Coronavirus-related since December 2019.

If any of the following conditions apply to you and you have symptoms such as coughing and a fever of 37.5 degrees Celsius or more, please **wear a mask and report to the front desk.**

Within the last 2 weeks:

- 1) You went to Wuhan.
- 2) You met someone who has been to Wuhan and was feeling sick.

IMPORTANT: When you go to a hospital, please make sure to report if you are from/have been to Wuhan.

【Infection Prevention】

There is no need to worry too much about the Novel Coronavirus. However, please be aware that it is a season when cold and flu are going around, and practice preventive measures such as hand washing and wearing a mask.
