[Sapporo station south / Odori area] Edition

The "Sapporo Burari Techo" was created by members affiliated with tourism business in Sapporo who gathered under the name "Sapporo Concierge." For over six months, members held workshops, split into groups by area and held numerous discussions. They imagined they were tourists and actually walked the streets of towns and cities in search of appeal and charm they wished to convey to others, and compiled their findings into this handbook. The "Sapporo Burari Techo" has carefully selected attractive stores, shops, and more that one would find if living in Sapporo, and incorporated these into the various courses introduced, so visitors can be excited as they venture around Sapporo to discover the wonders it has to offer. It is our hope that you will discover and enjoy new and unordinary charm of Sapporo.

Sapporo Concierge

Porocon (short for Sapporo Concierge)

The Sapporo Concierge chooses eight areas of central Sapporo introduced in the Burari Techo and offers a "Porocon Walking Town Guide" service.

Here we introduce recommended walking courses based on information in the Burari Techo, as well as courses that meet the needs of visitors, taking into account the season and weather conditions, combined with added hidden stories about each location.

Sapporo TV Tower

From the TV tower, you can enjoy a panoramic view of Odori Park, which has been straightened and improved. Souvenirs are also available, so feel free to stop by.

Sapporo City Hall 19F Observation Deck

Although only available on weekdays, the parlor and observation deck on the 19th floor of City Hall is a hidden gem known by locals.

A 1.9 km straight underground space connecting Sapporo Station to Susukino

The underground pedestrian space allows one to walk comfortably through the city even on rainy or snowy days, while enjoying shopping and dining in the adjacent buildings.

The central area of Sapporo is divided into a grid pattern around Odori Park and the Sosei River. Addresses are also divided into south and north based on Odori Park, and east and west based on the Sosei River. Odori Park, which divides the city center into north and south, is the bustling center of the city center, where events such as the Lila Festival, beer gardens, Autumn Festival featuring Hokkaido and Sapporo cuisine, White Illumination in winter, and the world-famous Snow Festival are held on a seasonal basis. The Sosei River divides the city into east and west, and a walk along the lush green riverside path will lead you to the history of Sapporo and its art works. The best way to enjoy the Sapporo Station South/Odori area is to stroll around above and below ground, and to view Sapporo on a grid from the TV Tower, JR Tower, the cafe restaurant on the 19th floor of Sapporo City Hall, and other tall buildings in the city center. Furthermore, there is a 1.9 km straight underground space from Sapporo Station to Odori and Susukino, allowing visitors to enjoy the Odori neighborhood comfortably even on rainy and snowy days!

## A store with a great view

In this neighborhood of lush greenery in the heart of Sapporo, I recommend restaurants where you can enjoy the seasonal scenery and night views. At "1 Akarenga Terrace" near the Akarenga Government Building, the excellent French restaurant "LA BRIQUE" and "Restaurant MINAMI" or the calm atmosphere of the food court on the 3rd floor are good places to eat. If you want to enjoy Odori Park and the TV Tower, the popular French restaurant "Le Mansa" at "Le Trois," "Marumi Coffee" at "Marui Imai Sapporo Main Store," and "6 TOKUMITSU COFFEE Cafe & Beans Odori Branch at 3 ODORI BISSE" are also prime locations.

## Lunch Spots

"DONGURI," "COLOMBO," "Hinode Soba".... Cheap, euphonic, and tasty lunch places in an office district alley.

"2 Donguri" has a fun lineup of savory breads such as chikuwa-pan, and recently, large onigiri (rice balls) have been gaining in popularity.

"3 Colombo" is a long-established restaurant that serves authentic curry with roux sauce. You can feel their dedication for fine ingredients and quality of their cutlets and hamburgers, not to mention their service of adding more curry roux.

"9 Hinode Soba", a stand-up restaurant, is popular for its hot soba and udon noodles that fill the stomachs and hearts of busy people. The cold ramen (chilled ramen noodles) in summer is also addictive!

## Recommended Town Walk Courses

### Experiencing the Grid City of Sapporo

#### Grid City Walking Course

As a fun activity to experience the grid city, we recommend drawing letters and pictures using a GPS application that displays the path you have walked.

Try your hand at art while walking around famous landmarks such as the Clock Tower and the TV Tower.

### First snow, first time in Sapporo. Grid city Sapporo, snow day, underground walk.

#### Snow Day Underground Town Walking Course

Walking on snow-covered roads for the first time is quite difficult. You will be exhausted just moving around.

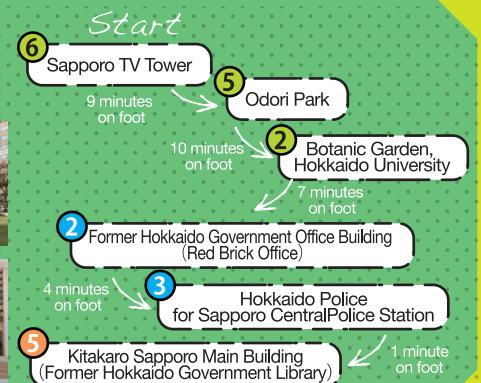

In such cases, use the underground pedestrian walkway to enjoy Sapporo sightseeing indoors, including shopping, dining, and views from high places, while avoiding cold and difficult paths.

### Nature, art and building tours in central Sapporo. Enjoy photography

#### Photo Shooting Town Walking Course

Odori Park has a fountain and flower beds, and there are also historical buildings in the surrounding area. Enjoy a stroll through the park and experience history, nature, and artwork, and take a memorable photo!
