Islet, "Nakajima," of
the Toyohira River

The Central Park of Sapporo,
where you can enjoy the four seasons

Nakajima Park was originally an islet surrounded by the Toyohira River and its tributary, the Kamokamo River.

Shobu Pond in the park was created as a lumber yard to accumulate lumber cut down in the upper reaches of the Ishikari River during the settlement of the area. The Shobu pond is a pathway for citizens enjoying boating in summer and for animals in winter as the surface of the water freezes over.

The area along the Kamokamo River, the origin of Nakajima Park, is characterized by its beautiful seasonal expressions, such as cherry blossoms in spring and autumn leaves in fall.

The lush green park is also home to the Hoheikan, a historical building, Kitara, a world-class concert hall dedicated to music, the Hokkaido Museum of Literature, an astronomical observatory, a gymnasium, tennis courts, and the Kogumaza children's puppet theater, making it a central park where children and adults alike can spend time in a variety of ways.

Burari Techo

[Nakajima Park area] Edition

The "Sapporo Burari Techo" was created by members affiliated with tourism business in Sapporo who gathered under the name "Sapporo Concierge." For over six months, members held workshops, split into groups by area and held numerous discussions. They imagined they were tourists and actually walked the streets of towns and cities in search of appeal and charm they wished to convey to others, and compiled their findings into this handbook. The "Sapporo Burari Techo" has carefully selected attractive stores, shops, and more that one would find if living in Sapporo, and incorporated these into the various courses introduced, so visitors can be excited as they venture around Sapporo to discover the wonders it has to offer. It is our hope that you will discover and enjoy new and unordinary charm of Sapporo.

The central park shows different
expressions 365 days a year

Nakajima Park presents a different look every day.

In spring, cherry blossoms bloom along the Kamokamo River; in late May, lilacs bloom and you can take a walk among the wisteria trellises; in June, fresh greenery blooms; in summer, you can enjoy boating Shobu Pond. In autumn, a walk along the ginkgo trees is recommended.

And in winter, the best time to visit is in the morning. White snowfields and the clear air is a scene we would like you to experience.
