

22–25.5 2025 **GREEN VISIONS POTSDAM**

FILM FESTIVAL FOR SUSTAINABLE LIVING

Green Visions Potsdam is a unique festival combining film, science and a market for sustainable living which spotlights environmental issues surrounding the future of our planet.

The festival informs and entertains with films and in-depth discussions on wide-ranging topics related to climate change and what we can do about it.

We welcome short film submissions from the international UNESCO Creative Cities Network in the creative fields Film, Media Arts and Gastronomy.

If selected, the films will be invited to take part in a special section of the festival, which will take place in Potsdam from 22nd until 25th of May 2025.
